A. **Academic Division:** Business, Industry, and Technology

B. **Discipline:** Industrial Technology - Industrial Maintenance

C. **Course Number and Title:** EMMT2500 – Industrial Networks

D. **Course Coordinator:** Randy Storms  
   **Assistant Dean:** Daniel Wagner

**Instructor Information:**
- Name: Click here to enter text.  
- Office Location: Click here to enter text.  
- Office Hours: Click here to enter text.  
- Phone Number: Click here to enter text.  
- E-Mail Address: Click here to enter text.

E. **Credit Hours:** 3  
   Lecture: 2 Hours  
   Laboratory: 2 Hours

F. **Prerequisites:** EMMT2250 (may be taken concurrently)

G. **Syllabus Effective Date:** Fall 2017

H. **Textbook(s) Title:** None

I. **Workbook(s) and/or Lab Manual:** None

J. **Course Description:** This class will introduce students to various types of networking systems used in industry today. Emphasis will be placed on DeviceNet, ControlNet, Data Highway, and Ethernet with hands on labs and troubleshooting. Students will assemble and test a ControlNet cable segment, practice the configuration and troubleshooting of a ControlNet network by a workstation located at any node using the RS Networx software. In addition to learning some of the background concepts and specifications of DeviceNet the participant will identify physical media and devices, connect and commission different devices to the network and learn how to determine if the DeviceNet network is functioning properly. Troubleshooting will involve the use of RSNetworx, interpretation of scanner diagnostics codes and module status indicators, the application of networking concepts and the use of the DeviceNet Troubleshooting Guide.

K. **College-Wide Learning Outcomes**

<table>
<thead>
<tr>
<th>College-Wide Learning Outcome</th>

Updated: 2/14/2017
L. Course Outcomes and Assessment Methods:

Upon successful completion of this course, the student shall:

<table>
<thead>
<tr>
<th>Outcomes</th>
<th>Assessments – How it is met &amp; When it is met</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Describe the basic theory of data propagation on a coaxial transmission line.</td>
<td>Quizzes during week 2 and 5, midterm and final exam.</td>
</tr>
<tr>
<td>2. Calculate and measure data propagation by performing series and parallel resistance, capacitance and TDR tests on cables and cable segments using common lab instruments, such as the multimeter, capacitance checker, insulation tester and TDR oscilloscope.</td>
<td>Quizzes during week 2 and 5, midterm and final exam, and labs throughout the semester.</td>
</tr>
<tr>
<td>3. Describe the characteristics and handling precautions of typical network hardware components.</td>
<td>Quizzes and labs throughout the semester, midterm and final exam.</td>
</tr>
<tr>
<td>4. Install, configure, commission, test and troubleshoot Devicenet, Controlnet, Ethernet, and Profibus networks.</td>
<td>Quizzes and labs throughout the semester, midterm and final exam.</td>
</tr>
<tr>
<td>5. State the rules for each of the following network protocols and topologies: Devicenet, Controlnet, Ethernet, and Profibus.</td>
<td>Quizzes and labs throughout the semester, midterm and final exam.</td>
</tr>
<tr>
<td>6. Determine the address and operating status of devices connected to a network.</td>
<td>Quizzes and labs throughout the semester, midterm and final exam.</td>
</tr>
<tr>
<td>7. Map Data into and out of a PLC using the DeviceNet scanner Scanlist.</td>
<td>Quizzes and labs throughout the semester, midterm and final exam.</td>
</tr>
</tbody>
</table>

M. Topical Timeline (Subject to Change):

1. The basic theory of data propagation on a coaxial transmission line
2. Time Domain Reflectometry (TDR) and performing a series and Parallel Resistance, Capacitance and TDR tests on cables and cable segments using common lab instruments such as the multimeter, capacitance checker, insulation tester and TDR Oscilloscope.
3. The characteristics and handling precautions of typical Control Net hardware components.
4. Commissioning a 4-node Control Net network using RSNetw orx for ControlNet.
5. Attaching a PC workstation to any ControlNet node, and select a path using “Who-Active” for the purpose of doing maintenance on any other network node.
7. Identifying the physical media and components that make up DeviceNet.
8. Installing and commissioning a DeviceNet Network.
10. Monitoring and accessing Inputs and Outputs using RSNetw orx for DeviceNet and RSLogix 5000.
13. Troubleshooting and maintaining a DeviceNet Network.
14. Definitions of basic network terminology.
15. Identifying computer and network connections and connectors.
16. Describing and identifying different types of network protocols and topologies.
17. Installation and testing a small Ethernet network.
18. Adding connections to an existing Ethernet network.
20. Choosing communication and data channels using RSLinx.
N. **Course Assignments:**

1. **Homework:** Selected problems and questions from weekly reading assignments must be completed.
2. **Labs:** Various self-paced and computer monitored labs administered in the IST lab.
3. **Quizzes:** Quizzes will be administered online via LMS.
4. **Midterm:** The midterm exam will be administered during week 8.
5. **Final:** There will be a comprehensive final at the end of the semester.

O. **Recommended Grading Scale:**

<table>
<thead>
<tr>
<th>NUMERIC</th>
<th>GRADE</th>
<th>POINTS</th>
<th>DEFINITION</th>
</tr>
</thead>
<tbody>
<tr>
<td>93–100</td>
<td>A</td>
<td>4.00</td>
<td>Superior</td>
</tr>
<tr>
<td>90–92</td>
<td>A-</td>
<td>3.67</td>
<td>Superior</td>
</tr>
<tr>
<td>87–89</td>
<td>B+</td>
<td>3.33</td>
<td>Above Average</td>
</tr>
<tr>
<td>83–86</td>
<td>B</td>
<td>3.00</td>
<td>Above Average</td>
</tr>
<tr>
<td>80–82</td>
<td>B-</td>
<td>2.67</td>
<td>Above Average</td>
</tr>
<tr>
<td>77–79</td>
<td>C+</td>
<td>2.33</td>
<td>Average</td>
</tr>
<tr>
<td>73–76</td>
<td>C</td>
<td>2.00</td>
<td>Average</td>
</tr>
<tr>
<td>70–72</td>
<td>C-</td>
<td>1.67</td>
<td>Below Average</td>
</tr>
<tr>
<td>67–69</td>
<td>D+</td>
<td>1.33</td>
<td>Below Average</td>
</tr>
<tr>
<td>63–66</td>
<td>D</td>
<td>1.00</td>
<td>Below Average</td>
</tr>
<tr>
<td>60–62</td>
<td>D-</td>
<td>0.67</td>
<td>Poor</td>
</tr>
<tr>
<td>00-59</td>
<td>F</td>
<td>0.00</td>
<td>Failure</td>
</tr>
</tbody>
</table>

P. **Grading and Testing Guidelines:**

Click here to enter text.

Q. **Examination Policy:**

Click here to enter text.

R. **Class Attendance and Homework Make-Up Policy:**

Click here to enter text.

S. **Classroom Expectations:**

Click here to enter text.

T. **College Procedures/Policies:**

**Attendance Requirements:** All students are required to attend all scheduled classes and examinations. Each faculty member has the right to establish regulations regarding attendance that he/she considers necessary for successful study.

Students who do not attend classes may be administratively withdrawn from those classes. However, failure to attend classes does not constitute withdrawal, and students are expected to process a formal withdrawal though the Student Records Office in Kee Hall.

**Student engagement requirements:**
Student engagement is based on the “active pursuit” of learning which can be measured by class attendance, class participation (in class or online), taking required quizzes/examinations, and submission of work assignments or papers. Student engagement consists of a student attending at least 60% of the class
sessions (there should be attendance throughout the term) and/or completing 75% of the assignments listed on the syllabus at the midpoint in the term. Exceptions can be made when there is on-going communication between the student and faculty member. The communication must be documented and the faculty member and student must be in agreement regarding the exception. Students not meeting the expectation will be administratively withdrawn from class. If a student believes he/she was administratively withdrawn in error, he/she may file an appeal. Being administratively withdrawn may have program and financial aid implications.

**Academic Misconduct** is any activity that tends to compromise the academic integrity of the college, or subvert the educational process. Examples of academic misconduct include, but are not limited to:

1. **Violation of course or program rules** as contained in the course syllabus or other information provided to the student; violation of program requirements as established by departments and made available to students.

2. **Plagiarism** including, but not limited to, submitting, without appropriate acknowledgment, any written, visual or oral material that has been copied in whole or in part from the work of others (whether such source is published or not) even if the material is completely paraphrased in one’s own words. This includes another individual’s academic composition, compilation, or other product, or a commercially prepared paper. Plagiarism also includes submitting work in which portions were substantially produced by someone acting as a tutor or editor.

   Such practices constitute plagiarism regardless of motive. Those who deny deceitful intent, claim not to have known that the act constituted plagiarism, or maintain that what they did was inadvertent are nevertheless subject to penalties when plagiarism has been confirmed.

3. **Cheating** and dishonest practices in connection with examinations, papers and projects, including but not limited to using unauthorized notes, study aids or information on an examination; obtaining help from another student during an examination; taking an exam or doing work for another student; providing one’s own work for another student to copy and submit as his/her own; or allowing another student to do one’s work and then submitting the work as one’s own. Also included would be altering a graded work after it has been returned, then submitting the work for re-grading; or submitting identical or similar papers for credit in more than one course without prior permission from the course instructors.

4. **Fabrication** including but not limited to falsifying or inventing any information, data or citation; presenting data that were not gathered in accordance with defined appropriate guidelines, and failing to include an accurate account of the method by which data were collected.

5. **Obtaining an Unfair Advantage** including, but not limited to stealing, reproducing, circulating, or otherwise gaining access to examination materials prior to the time authorized by the instructor; unauthorized collaborating on an academic assignment; taking, hiding or altering resource material; or undertaking any activity with the purpose of creating or obtaining an unfair advantage over another student’s academic work.

6. **Aiding and Abetting Academic Dishonesty** including, but not limited to providing material, information or other assistance to another person with the knowledge that such aid could be used in any of the violations stated above, or providing false information in connection with any inquiry regarding academic integrity.

7. **Alteration of Grades or Marks** including but not limited to, action by the student in an effort to change the earned credit or grade.

In addition, cases of academic dishonesty may involve photocopied materials. Materials used may fall under the Copyright Act. Violations of said Act may subject the user and/or the College to sanctions.
Statement on Disabilities: Any student who requires reasonable accommodations related to a disability should inform the course instructor and the Coordinator of Specialized Services (Room 138 in Kee Hall; phone 419-755-4727).

Students who encounter difficulty in any of their courses are encouraged to visit the Tutoring Resource Center (Room 119 in Fallerius Technical Education Center) for tutoring assistance, and the Student Success Center (Room 136 in Kee Hall) for academic assistance, advising services, referrals for personal counseling and Learning Disability (LD) Testing.

Statement on Withdrawals: As a student, you are expected to attend class. If you are unable or choose not to attend class, or if for whatever reason you are unable to keep up with the requirements of a course, you need to officially drop the class at the Student Records Office. Refund dates and withdrawal dates will vary slightly from term to term. Contact the Student Records Office for applicable dates. Additionally these dates are posted on the academic calendar available on the college’s website, www.ncstatecollege.edu, under the Academics heading on the home page and are available at the Student Records Office in Kee Hall. Students should go to the Student Records Office (Room 142 in Kee Hall) to process their withdrawal from any class.

If you choose to walk away from your class without officially withdrawing from it, the faculty member teaching the class must grade your classroom performance on the material available to him or her. This normally results in an "F" grade. An "F" grade can lower your grade point average considerably depending on the total credits accumulated.
