A. **Academic Division**: Business, Industry, and Technology

B. **Discipline**: Industrial Technology – Manufacturing Technology

C. **Course Number and Title**: MFGT1010 Industrial Blueprint Reading

D. **Course Coordinator**: Chris Barker  
   **Assistant Dean**: Daniel Wagner

**Instructor Information:**
- **Name**: Click here to enter text.  
- **Office Location**: Click here to enter text.  
- **Office Hours**: Click here to enter text.  
- **Phone Number**: Click here to enter text.  
- **E-Mail Address**: Click here to enter text.

E. **Credit Hours**: 2  
   - Lecture: 1 hour  
   - Laboratory: 2 hours

F. **Prerequisites**: None

G. **Syllabus Effective Date**: Fall 2017

H. **Textbook(s) Title**:  
   *Elementary Blueprint Reading for Machinists*  
   - **Author**: David L. Taylor  
   - **Year**: 2003  
   - **Edition**: 5th  
   - **ISBN #**: 9781401862565

I. **Workbook(s) and/or Lab Manual**: None

J. **Course Description**: Blueprint interpretation is a core skill for Engineers and Apprentices. Students will learn the fundamentals of orthographic projection, arrangement of views, application of dimensions and tolerances, machining and finishing processes, and more. Materials presented conform to the latest ANSI standards and ISO specifications. Sample prints in both standard and metric format.

K. **College-Wide Learning Outcomes**:

<table>
<thead>
<tr>
<th>College-Wide Learning Outcome</th>
<th>Assessments - - How it is met &amp; When it is met</th>
</tr>
</thead>
<tbody>

Updated: 10/23/15
L. Course Outcomes and Assessment Methods:

Upon successful completion of this course, the student shall:

<table>
<thead>
<tr>
<th>Outcomes</th>
<th>Assessments – How it is met &amp; When it is met</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Demonstrate an in-depth proficiency of Industrial Blueprint reading and interpretation to ANSI Y14.5M-1982 and ISO standards.</td>
<td>Met throughout the semester Homework, in class activities, quizzes, exams Industry standards, ANSI standards, ISO standards</td>
</tr>
<tr>
<td>2. Identify and describe standard engineering symbols, title blocks, line types and views shown on prints and drawings.</td>
<td>Met in the first fourth of the semester Homework, in class activities, quizzes, exams Industry standards, ANSI standards, ISO standards</td>
</tr>
<tr>
<td>3. Identify and describe standard engineering format for orthographic projections, including auxiliary views and various section views commonly represented on Industrial prints.</td>
<td>Met in the second fourth of the semester Homework, in class activities, quizzes, exams Industry standards, ANSI standards, ISO standards</td>
</tr>
<tr>
<td>4. Apply dimensions and tolerances to calculate acceptable limits for features on Industrial Blueprints.</td>
<td>Met in the second fourth of the semester Homework, in class activities, quizzes, exams Industry standards, ANSI standards, ISO standards</td>
</tr>
<tr>
<td>5. Identify and interpret various representations of part features and surface finishes.</td>
<td>Met in the third fourth of the semester Homework, in class activities, quizzes, exams Industry standards, ANSI standards, ISO standards</td>
</tr>
<tr>
<td>6. Identify the basic types and methods of internal and external screw thread representation and other fasteners.</td>
<td>Met in the last fourth of the semester Homework, in class activities, quizzes, exams Industry standards, ANSI standards, ISO standards</td>
</tr>
<tr>
<td>7. Recognize and interpret Assembly and Detail drawings in terms of their application(s).</td>
<td>Met in the last fourth of the semester Homework, in class activities, quizzes, exams Industry standards, ANSI standards, ISO standards</td>
</tr>
</tbody>
</table>

M. Topical Timeline (Subject to Change):

1. Intro to Industrial Drawings
   a. Title Blocks
   b. Lines and Symbols
2. Orthographic Projection
   a. One-View Drawings
   b. Two-View Drawings
   c. Three-View Drawings
   d. Auxiliary Views
   e. Full Sections
   f. Half Sections
3. Dimensions and Tolerances
   a. Fractional Parts
   b. Decimal Parts
   c. Decimal Dimensions and Tolerances
d. Dimensioning Angles  
e. Dimensioning Holes  
f. Metric Dimensions  
g. Revisions or Change Notes  

4. Part Features and Finishing  
a. Counterbores, Countersinks, and Spotfaces  
b. Fillets, Rounds, and Slots  
c. Machining Symbols, Bosses, and Pads  
d. Tapers, Chamfers, and Bevels  
e. Necks and Knurling  
f. Keyseats and Flats  

5. Screw Threads and Fasteners  
a. Screw Thread Specification  
b. Screw Thread Representation  

6. Assembly Drawings  
a. Assembly Prints  
b. Detail Drawings  

N. Course Assignments:  

Graded assignments:  
1. Print interpretation assignments  
2. Quizzes  
3. Midterm  
4. Final Exam  

O. Recommended Grading Scale:  

<table>
<thead>
<tr>
<th>NUMERIC</th>
<th>GRADE</th>
<th>POINTS</th>
<th>DEFINITION</th>

Q. Examination Policy:  

Click here to enter text.  

R. Class Attendance and Homework Make-Up Policy:  

Click here to enter text.
T. **College Procedures/Policies:**

**Attendance Requirements:** All students are required to attend all scheduled classes and examinations. Each faculty member has the right to establish regulations regarding attendance that he/she considers necessary for successful study.

Students who do not attend classes may be administratively withdrawn from those classes. However, failure to attend classes does not constitute withdrawal, and students are expected to process a formal withdrawal through the Student Records Office in Kee Hall.

**Student engagement requirements:**
Student engagement is based on the “active pursuit” of learning which can be measured by class attendance, class participation (in class or online), taking required quizzes/examinations, and submission of work assignments or papers. Student engagement consists of a student attending at least 60% of the class sessions (there should be attendance throughout the term) and/or completing 75% of the assignments listed on the syllabus at the midpoint in the term. Exceptions can be made when there is on-going communication between the student and faculty member. The communication must be documented and the faculty member and student must be in agreement regarding the exception. Students not meeting the expectation will be administratively withdrawn from class. If a student believes he/she was administratively withdrawn in error, he/she may file an appeal. Being administratively withdrawn may have program and financial aid implications.

**Academic Misconduct** is any activity that tends to compromise the academic integrity of the college, or subvert the educational process. Examples of academic misconduct include, but are not limited to:

1. **Violation of course or program rules** as contained in the course syllabus or other information provided to the student; violation of program requirements as established by departments and made available to students.

2. **Plagiarism** including, but not limited to, submitting, without appropriate acknowledgment, any written, visual or oral material that has been copied in whole or in part from the work of others (whether such source is published or not) even if the material is completely paraphrased in one’s own words. This includes another individual’s academic composition, compilation, or other product, or a commercially prepared paper. Plagiarism also includes submitting work in which portions were substantially produced by someone acting as a tutor or editor.

Such practices constitute plagiarism regardless of motive. Those who deny deceitful intent, claim not to have known that the act constituted plagiarism, or maintain that what they did was inadvertent are nevertheless subject to penalties when plagiarism has been confirmed.

3. **Cheating** and dishonest practices in connection with examinations, papers and projects, including but not limited to using unauthorized notes, study aids or information on an examination; taking an exam or doing work for another student; providing one’s own work for another student to copy and submit as his/her own; or allowing another student to do one’s work and then submitting the work as one’s own. Also included would be altering a graded work after it has been returned, then submitting the work for re-grading; or submitting identical or similar papers for credit in more than one course without prior permission from the course instructors.

4. **Fabrication** including but not limited to falsifying or inventing any information, data or citation;
presenting data that were not gathered in accordance with defined appropriate guidelines, and failing to include an accurate account of the method by which data were collected.

5. **Obtaining an Unfair Advantage** including, but not limited to stealing, reproducing, circulating, or otherwise gaining access to examination materials prior to the time authorized by the instructor; unauthorized collaborating on an academic assignment; taking, hiding or altering resource material; or undertaking any activity with the purpose of creating or obtaining an unfair advantage over another student’s academic work.

6. **Aiding and Abetting Academic Dishonesty** including, but not limited to providing material, information or other assistance to another person with the knowledge that such aid could be used in any of the violations stated above, or providing false information in connection with any inquiry regarding academic integrity.

7. **Alteration of Grades or Marks** including but not limited to, action by the student in an effort to change the earned credit or grade.

In addition, cases of academic dishonesty may involve photocopied materials. Materials used may fall under the Copyright Act. Violations of said Act may subject the user and/or the College to sanctions.

**Statement on Disabilities:** Any student who requires reasonable accommodations related to a disability should inform the course instructor and the Coordinator of Specialized Services (Room 138 in Kee Hall; phone 419-755-4727).

Students who encounter difficulty in any of their courses are encouraged to visit the Tutoring Resource Center (Room 119 in Fallerius Technical Education Center) for tutoring assistance, and the Student Success Center (Room 136 in Kee Hall) for academic assistance, advising services, referrals for personal counseling and Learning Disability (LD) Testing.

**Statement on Withdrawals:** As a student, you are expected to attend class. If you are unable or choose not to attend class, or if for whatever reason you are unable to keep up with the requirements of a course, you need to officially drop the class at the Student Records Office. Refund dates and withdrawal dates will vary slightly from term to term. Contact the Student Records Office for applicable dates. Additionally these dates are posted on the academic calendar available on the college’s website, [www.ncstatecollege.edu](http://www.ncstatecollege.edu), under the Academics heading on the home page and are available at the Student Records Office in Kee Hall. Students should go to the Student Records Office (Room 142 in Kee Hall) to process their withdrawal from any class.

If you choose to walk away from your class without officially withdrawing from it, the faculty member teaching the class must grade your classroom performance on the material available to him or her. This normally results in an "F" grade. An "F" grade can lower your grade point average considerably depending on the total credits accumulated.
